## The Life in Alignment

As we getting closer to the manifestation of His "Great Love" for human kind, let us reflect on our lives and attest that we are living up to His expectations, conduits of grace. Let us pause from our busy lifestyle and confirm that His will is "done on earth as it is in heaven."

It is imperative in this time of "alignment" that we live to be aware of ourselves and change our distorted perceptions of our connection with God. We should strive to be what our creator intended us to be in his likeness. Much like a river in constant movement, infusing others with love without being stagnant water that only produces decay.

Our "Love" need to be a means of transformation- whatever one does is part of their being in state of loving. Our own "alignment" has to do with correcting the separation between ourselves and our Maker. We must understand that we are spiritual beings having a human experience, and not a human being having a spiritual experience.

Live by Jesus examples and we shall be more conscious of how to regain unity with our Father. Our challenge is walk Walk with Him, Share with Him, and reflect His Word: however, we do not need to know all the answers as long as we are willing to invest our lives in each other's.

Saint Paul invites us to reflect and look upon how much time is spent preparing for our material lifestyles and how little time is used to prepare for our spiritual journey- be available, flexible, teachable and dependable.

May God Bless Us.
